EDUCATION

Maulana Azad National Institute of Technology, Bhopal

B.Tech - Computer Science and Engineering

Expected May 2028

CGPA: 7.40

The Himalaya Academy, Dewas

2023

Madhya Pradesh Board of Secondary Education – Class XII

Percentage: 85.2%

Carmel High School, Gadchiroli

2021

Central Board of Secondary Education – Class X

Percentage: 93.8%

WORK EXPERIENCE

Data Engineering Intern

May 2026 – Present

Transform Rural India Foundation (TRIF)

- Centralized unstructured M-Format data into **7 structured fact tables** by architecting a grain-aware star-schema ETL pipeline using **Python (Pandas, NumPy)**.
- Rectified schema inconsistencies and encoding errors across **186,000+ raw survey responses** by engineering a multi-grain data validation pipeline.
- Accelerated KPI reporting from weekly manual exports to near-real-time updates for **2000+ GPs across 250+ CLFs, 30+ Rural Blocks and 5 States** by designing a multi-page **Power BI** dashboard tracking 150+ metrics.
- Slashed manual report generation time by **80%** for BLCC Fact Sheets by automating web scraping workflows via **Python (Selenium)**.

PROJECTS

DPI Engine | C++17, Python, FastAPI, React.js, Docker

GitHub

Multi-threaded Deep Packet Inspection engine with a full-stack web interface for PCAP traffic analysis.

- Engineered a **multi-threaded C++17 DPI core** with **FiveTuple** flow tracking and TLS SNI extraction to classify **22+ applications**.
- Implemented rule-based flow blocking and HTTP Host fallback, evaluating IPs and domains at the connection level to drop blocked packets.
- Built a **Dockerized FastAPI backend** on **Render** to orchestrate the analyzer, processing **50 MB .pcap** files in <10s JSON flow analytics.
- Deployed a **React + Vite frontend** on **Vercel**, using Recharts to visualize app distribution, packet tables, and domain intelligence.

OmniSync | JavaScript (ES6+), Chrome Extensions API, Node.js, GraphQL, REST API

GitHub

Cross-platform browser extension that syncs algorithmic submissions from LeetCode, Codeforces, and CodeChef to GitHub.

- Eliminated auth failures across 3 platforms by architecting per-platform isolated content scripts in **Manifest V3** to preserve browser cookie context for credentialed **GraphQL and REST API** calls.
- Enabled retroactive sync of 1500+ historical submissions by implementing a de-duplication layer via **chrome.storage.local**, separating one-time backfill from real-time live sync to prevent redundant GitHub commits.
- Secured **GitHub OAuth** flow achieving zero client-side secret exposure by building a **stateless Node.js serverless function on Vercel** to proxy token exchange, keeping credentials exclusively in server environment variables.
- Reconstructed per-problem portfolio pages with metadata (tags, acceptance rate, problem statement) by converting **LeetCode GraphQL HTML responses** to Markdown and batching file pushes via **GitHub's Git Tree API** in a single backdated commit.

NITBFreshers Study Portal | JavaScript, Tailwind CSS, PHP, MySQL

GitHub

Full-stack scalable academic resource management system for MANIT students.

- Supported **1000+ concurrent users (adopted by ~95% of fresher batch)** via a multi-instance PHP/MySQL architecture.
- Secured user authentication and eliminated SQL injection vulnerabilities by using prepared statements and 64-char HttpOnly tokens.
- Cut material browsing load time by **40% (measured via Lighthouse)** for **1000+ concurrent users** by replacing synchronous page reloads with asynchronous Fetch API calls, while enforcing PDF.js-based anti-scraping controls on all resources.

CODING PROFILES

LeetCode – Username: ShreePandit, Max Rating: **2167** (Guardian)

CodeChef – Username: shree_pandit, Max Rating: **1815** (4 Star)

Codeforces – Username: ShreePandit, Max Rating: **1550** (Specialist)

TECHNICAL SKILLS

Languages: C++, C, Python, JavaScript, PHP

Web & Frameworks: React.js, Node.js, Express.js, Next.js, FastAPI

Data Libraries: NumPy, Pandas, Selenium, Matplotlib, Seaborn

Databases: MySQL, PostgreSQL, MongoDB

Tools & Platforms: Git, Docker, Microsoft Power BI, Chrome Extensions API

CS Coursework: Data Structures & Algorithms, OOP, DBMS, Operating Systems, Computer Networks, Computer Architecture

ACHIEVEMENTS

- 2nd Runner-Up** at Kinetic Coding Challenge by IIPE Visakhapatnam.
- National Finalist** at Shastra Programming Contest by IIT Madras.
- National Finalist** at Code Wars (Team “GhatCPT”) by IIT Jodhpur at Prometeo’26.
- Secured **Global Rank 27** in CodeChef Starters 216 out of 22000+ participants.
- Secured **Global Rank 324** in LeetCode Weekly Contest 500 out of 27000+ participants.
- Secured **Global Rank 566** in CodeForces Round 1095 (Div. 2) out of 22000+ participants.

POSITION OF RESPONSIBILITY

Corporal, 12 MP BN NCC, MANIT Bhopal

August 2024 – Present

Team Management Head, ISTE SC MANIT

February 2025 – Present
